Tuba Range Extender

Proceed up to beginning and play the C line again up an octave, continue in this manner as far as possible!

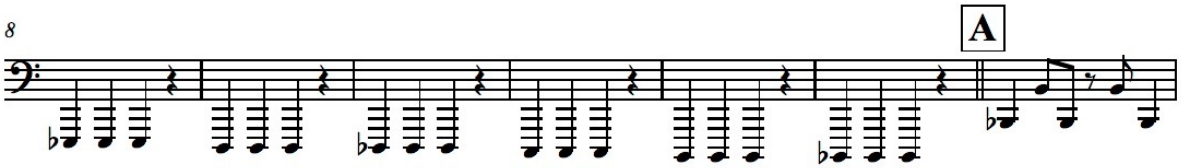
Low Register Workout: Bb to Bb Pedal

Take these exercises slowly, however fast you can do a clean precise jaw shift, then slowly move them faster, for the extreme pedal register fast won't be possible so continue to do those slowly

'HOH' relaxed breath

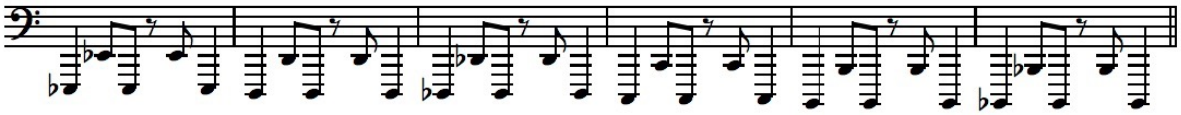
8



Use the normal fingering for your upper note to keep it in tune

15

21



27 **B** *Top notes short, full breaths, add the top octave after the bottom ones are secure, think about jaw flexibility*
